

EDWARD SAMSON MBAYE

My name is Edward Samson Mbaye, I studied my primary education at Tambukareli Primary School from 1998, and I graduated in 2004. In 2005, I started evening classes at Sayuni Secondary School with the hope of obtaining a high school education. However, due to financial challenges, I was unable to move forward, so I dropped out before I finished. Eventually, I achieved my dreams when I joined St. John's Seminary in 2008 with the help of Manyoni Orphanage Sponsorship Association (MOSA). In 2009, I graduated with a division four pass marks.

In 2011, I joined Mafinga National Service in Iringa Region and started basic army training.

I learned a lot including production and animal husbandry. In 2012, I was selected to join the Tanzania People's Defense Forces at Makutupora Training Camp where I trained for five months and emerged with a level A certificate.

Today, I am a Private in the military stationed at Dodoma base. I credit my success to Manyoni Orphanage Sponsorship Association for supporting me financially to be where I am today because if it were not for the organization, my quest for education would have ended with my primary level only and a depressing future. Thank you, MOSA for helping me to get to my destiny and May God bless you all.
